Marine Sedimentology in the Red Sea
January 13-22, 2016: IUI-Eilat

Registration closes!!! October 10, 2015

Course Directors: Timor Katz and Beverly Goodman-Tchernov

Course Lecturers: Ahuva Almogi-Labin, Hanan Ginat, Yuval Goren, Barak Herut, Boaz Lazar, Yonathan Shaked, Adi Torfstein

The Marine Sedimentology Course is held in Eilat at the Interuniversity Institute for Marine Sciences and is open to qualified students from all Israeli Universities (third year undergrad through PhD) and provides an overall intensive introduction to marine sedimentology including hands-on training in sampling and analysis from ship, shore, and underwater, guided project design, and frontal lectures.

The course is valuable to students from a wide range of scientific majors such as biology, geology, and physics; particularly those interested in marine-oriented studies.

Course details and registration available on IUI website:
